Dispensing Optician

Preston and Lytham

Full or Part-Time

Competitive salary

The dream **Dispensing optician** job! Over the past 2 years we have grown by over 30% and we are looking for a D.O. to join our team and help to continue that growth.

We aim to make choosing glasses fun! We want our clients to be incredibly excited to be collecting their new eyewear! We want our clients to see their best and look their best.

As a D.O. with us you will be able to offer clients unhurried advice on the perfect frames for them. You will love the range of frames on offer, from quirky Anne et Valentin, or colourful Kirk & Kirk to vintage cool Moscot - frame styling is a breeze! With Essilor's Visiooffice we can also personalise the lenses to perfectly suit the choice of frame.

We will also ask you to get involved with practice development too, maybe marketing, window-dressing, social media or buying - there is always something to do!

Our D.O's also get involved in contact lens teaches, assembling glasses from our remote edger and even in conducting visual stress assessments and colorimetry.

Don't worry if you're unfamiliar with brands that we stock and products that we supply, there will be plenty of time to learn. If you are passionate about eyewear, genuinely love people and want to work with a fantastic bunch of people, please get in touch.

- High end practice
- High value dispensing
- Experienced support staff
- Fabulous frame range
- Visiooffice & Nautilus
- Competitive Salary
