Optometrists*

Optometrist

Full or Part-Time

Preston and Lytham

Competitive Salary

We are looking to recruit an **optometrist** to be an integral part of our team. Recent years have been really exciting for us, having relocated both our Preston and Lytham practices to larger, purpose designed premises. This has allowed our business to grow (over 30% in the past 2 years) and we are seeking the ideal individual to work alongside us to develop the business further.

Unhurried, personalised service is at the core of our offering both in the consulting room and in the dispensing areas. We offer both Optomap and OCT technology and have a fantastic contact lens client base too. Should you have an interest in specialist contact lens fitting we fit and supply keratoconic lenses for the local hospital. We also offer visual stress assessments, overlays and colorimetry services.

You will be supported by a fantastic team of experienced Dispensing Opticians and Optical Advisors and we hold regular Professional Meetings for peer review and development. We offer the latest lens technology with Essilor Visioffice at both practices alongside sought after brands like Dita, Oliver Peoples, Kirk & Kirk and Lindberg.

If you would love to be able to really make your mark, be a vital part of our team, have an influence in the development of the practice, be given time to build rapport with our clients, grow alongside us and be supported by passionate owners and staff, please get in touch. We would love to hear from you.

We are open to applications from both experienced and recently qualified optometrists as full support will be given to make the transition to joining us as comfortable as it is exciting.

- High-end practices
- Competitive salary (package negotiable)
- Full or Part-time hours available
- 40 minute testing times
- OCT, Optomap, Fundus photography
- Workplace Pension scheme
- Experienced support staff
